EDUCATION

Brigham Young University - Idaho
B.S. in Software Engineering

January 2022 - July 2024

Utah Valley University
Associates of Science

January 2019 – Dec 2021

WORK EXPERIENCE

Vivint SmartHome

Feb 2023 – Present

QA Specialist

- **Embedded and trained an AI** compliance tool to flag policy violations in sales-call transcripts—iteratively tuning model parameters to meet target accuracy metrics.
- **Collaborated with developers and product managers** in Agile/SCRUM meetings to clarify requirements and prioritize bug fixes.
- **Documented test results and metrics**, reporting test coverage, pass/fail rates, and open defects to high managers and leaders.

Brigham Young University - Idaho

Jan 2023 – Apr 2023

Front-end Developer Intern

- **Collaborated in the development of a student-led communication application using Android Studio**, while practicing design principles and time management.
- **Worked closely with the back-end team** to ensure the completion of all necessary tasks.
- **Actively participated in weekly SCRUM meetings** to maintain alignment with project objectives and prioritize tasks effectively.

Skills

Angular, JavaScript, TypeScript, CSS, HTML, Node.js, SQL, Git, RESTful API Integration, CI/CD basics, Test automation, *PHP, Python, Swift, Swagger, Render, GitHub, VS Code, IntelliJ IDEA, XCode, Android Studio, Figma, PhotoShop*

Projects

Front End Senior Project – <https://github.com/angelaslinker/Senior-Project>

Developed “c’est la vie”, a full stack online fashion magazine using Node.js/Express and MongoDB for newsletter signup. Designed a responsive, visually engaging interface to curate real time articles, with a modular front and back end architecture for easy maintenance.

• *HTML, CSS, JavaScript, Node.js, and MongoDB*

E-commerce Site for Sleeping Bags– https://github.com/angelaslinker/WDD330-Portfolio/tree/main/sleep_outside

Collaborated on a responsive sleeping-bags storefront using JavaScript, HTML, and CSS, featuring secure payment integration and a modular codebase for easy maintenance and future scalability.

• *JavaScript, HTML, CSS, JSON, API's, Node*

Full Stack Angular Showcase – <https://github.com/angelaslinker/WDD>

Developed a full stack content management system using Angular and MongoDB (Node.js/Express), featuring responsive CRUD interfaces, client side routing, and form validation within a modular, maintainable architecture.

• *Angular, TypeScript, Node.js, Express, JavaScript, HTML, CSS*

PHP Ecommerce Site – <https://github.com/angelaslinker/PHPMotors>

Developed a PHP/MySQL vehicle showcase website with dynamic listings and database driven content management.

• *JavaScript, HTML, CSS, JSON, API's, Node*
